

AITP- Lehigh Valley Chapter Meeting

"Mac/Windows Compatibility"

Speaker: [Dave Marra](#), Senior Systems Engineer for [Apple](#)

Date: Wednesday, September 22, 2010

Location: [Sunset Grille](#), Allentown, PA

Tonight's presentation will be about Mac and Windows compatibility. With the ability to run Windows, work with PC documents and connect to PC networks, today's Intel-based Mac truly offers the best of both worlds: a no-compromises solution to having one computer that can seamlessly run both Mac and Windows. Combine the Mac's ability to run Windows with its legendary ease-of-use, built-in Universal Access tools, built-in iLife software and the lowest cost-of-ownership in the industry.

About [Dave Marra](#): Dave Marra has conducted thousands of technology presentations, keynote addresses and workshops for schools, Mac and PC user groups, businesses and other professional organizations across the United States and Canada. Certified as both an Apple Certified Technical Coordinator and an Apple Certified Systems Administrator, his specialty areas include digital multimedia, internet technologies, accessibility and Mac/PC integration. For more information about Dave, please visit his web site at www.marrathon.com.
