

Census Data On The Move

Using New Technologies for Data Dissemination

Topic

The US Census Bureau is the leading source of quality data regarding the nation's people and economy. The goal of the Census Bureau is to provide the best mix of timeliness, relevancy, quality and cost for the data and services. During this presentation, the audience will learn about the history of the Census Bureau, the different types of data the agency collects and how new technologies are being used to disseminate data to the public.

Speaker

Noemi Mendez Eliasen is a Data Dissemination Specialist at the United States Census Bureau. She has a B.A. in Geography and International Relations from Syracuse University. Throughout her career, Noemi has trained both novice and experienced GIS users the fundamentals of GIS and how to access Census data for research, grant writing and for other uses. Noemi is on the Advisory Board of the Pennsylvania Mapping and Geographic Information Consortium (PAMAGIC) and the Advisory Board for the Professional Science Masters in GIS at Temple University. Noemi is very active in the open data movement and you can often find her on Twitter @DivineMsN.

Date

Wednesday, October 21st, 2015 (10/21/15)

Location & Directions

The Starlight Diner, 233 N. Route 100, Allentown, PA 18106-9367. (610)395-4031. Near PA Route 100 in Fogelsville, PA, just south of the Interstate 78 exchange. Meeting room is in the back left.
