PRESENTERS: Matt Kopp

Matt Kopp is Senior Vice President of Engineering at Convergent. Convergent is an advanced technology integrator with over 40 years of experience in the design, deployment and on-going management of Unified Communications, Networking, Storage, Carrier & Cloud Services and Professional Services. Matt is a seasoned IT professional who brings with him fifteen years of experience in management, implementation and sales roles. Throughout his career, Matt has supported clients during the designing, planning and implementation of complex infrastructure initiatives such as Unified Communications, Disaster Recovery, SDWAN and more.

DESCRIPTION:

Business and technical requirements are changing the way organizations utilize and deploying their communications platforms. This discussion will focus on business demands driving Unified Communications purchasing decisions, technical drivers and customer engagement. Along the way we will discuss how new service offerings and technologies such as UCaaS and artificial intelligence are providing small and mid-sized organizations enterprise level features and touch on how carrier services may affect the decision and deployment of UC solution.

DINNER FEES:

\$20 to cover for the dinner. You can also pay via cash or check at the door.

Please RSVP on-line at <https://www.meetup.com/AITP-LV> by Sunday, May 12th. If you are planning to attend only the 7:00 PM free presentation, you do not need to RSVP.

Please see our website at lv-aitp.org for details and scheduling changes.
