"Information Systems Ethical and Social Issues"

Topic

This session will explore the moral dimensions that our information age has created and how to respond to them appropriately in our organizations. We will also explore key technology trends that are raising ethical issues, examine the steps involved in performing ethical analysis, and review standard ethical principles that will work to address these real world challenges.

Speaker

Myles Miller

Two times Best Selling Author and Radio Host of "MylesofSUCCESS", Myles Miller is the CEO and founder of three training and development companies called LEADUP, Learning Breaks and SUCCESSHQ. Myles has over 30 years' experience in the project management field; across multiple industries including retail, defense, state and federal government and most recently hospitality. During his varied career, he has led projects ranging in budgetary size from $100K to $500B. His team leadership has impacted national and international companies and governments.
