

Common Web Application Vulnerabilities: *Know your enemy*

Speakers

[Lawrence Wolfe](#), [Jonathan Bailer](#) and [Jason Chrin](#)

Date

Wednesday, February 11, 2015

Location

[Liquid Interactive](#), 7540 Windsor Drive, Suite 100, Allentown, PA

Fee

FREE networking and dinner event – *sponsored by Liquid Interactive*

Topic & Speakers

This presentation will focus on common vectors of entry including Server/Infrastructure Security, Code Vulnerabilities, and The Human Factor. There will also be a hands-on portion to allow participants to see and exploit vulnerabilities on a live (but isolated and safe) website.

Lawrence Wolfe – CTO, Director of Mobility: Since phones were not so smart, and the only colors to pick were green and black, Larry has innovated in mobility and delivered dynamic content driven applications for B2C and B2B organizations. Larry's our master planner, mapping the methods and positioning every piece of the process in its rightful place.

Jonathan Bailer – Senior Technical Lead: Jon oversees the technical direction for some of Liquid's most high profile and traffic-intensive clients. He is a Level 2 certified Umbraco developer, and has extensive experience in C++, Java, and .NET programming.

Jason Chrin – Senior Technical Lead: Jason is a Tech Lead at Liquid Interactive focusing on e-commerce systems. He holds several Microsoft credentials including MCSE, MCSA, and MCDBA and brings his and 15+ years of IT experience to come up with simple and robust solutions.
