Evolution of IoT/M2M in the Workplace

A Verizon Wireless Presentation

Topic

Our workplace has been adapting to the ever-changing technological advances, and IoT (Internet of Things)/M2M (Machine-to-Machine) has arrived to present another challenge we IT professionals will need to acclimate. How do we build an IoT roadmap, develop and deploy this technology in conjunction with cellular connectivity? What are IoT's future trends?

Speakers

Bob Zimpfer: An Advanced Solutions Architect specializing in IoT, Bob has over 14 years of experience at Verizon Wireless. His prior work included numerous sales channels, retail, management and B2B. Bob assists clients with product development and go-to market strategies.

Charlie Trainor: Charlie has been with Verizon Wireless for over 14 years, managing numerous functions of the business such as retail, government, B2B, and now manages a team of Partner Channel Managers for the Philadelphia region with Verizon Wireless.
